Community Picnic: Dominion Day

The businessmen of town are again preparing for the Community Picnic which will be held at the fair grounds on Wednesday, July 1st.

A meeting was held Thursday evening last and the following officers and committees elected: president, Mr. H. W. Chambers; secretary, Mr. J. E. Gooder.

Finance Committee: Messrs. Tomlin, Ranton and McFarquhar. Refreshments Committee: Messrs. Chambers, Studer, Kirby and Hartley.

Ice Cream Committee: Messrs. Phillips, T. Johnson, Kirby, Crossman and Chambers.

Sports and Grounds Committee: Messrs. C. E. Reiber, H. C. Lieberman, Ed. Ford, Ross Ford and H. Hawkes.

Gate Committee: Messrs. Wrightson, Hilford, Bruce, McNaughton, Tomlin and Ranton.

Mr. Ward Keith will have charge of the booth.

Those who attended last year will remember the success of the picnic and this year the committees are out to sustain their reputation. They say that there will not be a dull moment from 11 o'clock to 5 o'clock.

Everyone is asked to bring their lunch basket and picnic in the grove at noon. Coffee and lemonade will be supplied. Tickets will be handed out at the gate to all the children for free ice cream.

The sports committee are arranging a good line of sports for young and old. A softball tournament is being arranged and all country teams wishing to enter are requested to communicate with Mr. C. E. Reiber.

Don't forget this picnic is given by the business men and there will be no charge at the gate. Everybody should come and bring the children.

In the evening a picture show, "Father's Son" will be given in the Opera House and a dance will follow the show.

Rev. H. E. Roppel Transferred to Rosthern

Rev. H. E. Roppel returned on Tuesday from the annual session of the North-west Canada Conference of the Evangelical Church which convened last week from June 9th to 14th at Lipton, Sask. As secretary of the conference he will give an official report of the proceedings next Sunday morning in the church services.

By appointment of the conference Rev. Roppel is moving to Rosthern, Sask. and Rev. H. J. Wood, of Albany, N.Y. is coming to Didsbury as successor and pastor of the Evangelical Church here.

Mr. Roppel has served his appointment here for the last six years and during that time his ministry has been very successful. Not only his congregation, but the people of the district regret his transference.

Mr. and Mrs. Roppel leave here early in July.

Official Visit To Rebekah Lodge

On Thursday evening last the local Rebekah Lodge received an official visit from Mrs. S. Robinson, of Stettler, Grand Warden of the Alberta Rebekah Assembly.

During the meeting a candidate was initiated into the Order and the degree team were highly complimented on their work.

It was announced that a competition of degree work will take place on Friday evening when the Innisfail and Didsbury lodges will compete.

LOCAL & GENERAL

Ronald Hawkes, of Calgary spent Sunday in town.

Miss Ivy Mitchell, of Louisville, Kentucky is visiting her uncle, Mr. Ira Levogood for a few weeks.

Leval Snyder and Herb Dedole left on Tuesday for a six weeks' tour in Ontario.

Next Sunday at Knox United Church, Rev. A. E. Hayes will take for his subject: "The Right to be Happy." On Sunday, June 28th, Mr. Hayes who is leaving the district will preach his farewell sermon.

At the convention of the Alberta Pharmaceutical Association held at the Palliser Hotel, Calgary last week, Mr. H. W. Chambers, of Didsbury was elected president of the association and Mr. Maybank, of Oils was re-elected registrar.

Zane Grey's "Fighting Caravan" at the movies (tongued) Thursday, is one of the greatest pictures of the Great West. Where the "Covered Wagon" left off, "Fighting Caravan" begins. The admission to this big feature picture is 25 cents to everybody.

Mr. Martin, of the Dominion Fish Hatchery, Banff passed through here on Saturday after planting trout in the streams tributary to the Big Red, west of here. While here he discussed matters of agriculture with members of the Fish & Game Association.

The football boys will go to Bowden on Saturday evening, as Eagle Hill is unable to play here. The team meets at the Pioneer Office not later than 6:30 and is as follows: Robinson, Kercher, Reiber, J. Edwards, Ward, McDonald, McLaure, Brewster, Steele, Davis and Hartley. Reserves: J. Winterbottom, J. Thomson, A. Thomson.

A very pleasant evening was spent on Saturday when a number of friends surprised Mrs. Hugh Lee at her home in honor of her birthday. Bridge was played and the prizes went to: Mr. Ed. Ford, Mrs. J. Fleury and Mr. Bill McFarquhar. Those present were: Mr. and Mrs. Ranton, Mr. and Mrs. Teskey, Mr. and Mrs. McGhee, Mr. and Mrs. Fleury, Mr. and Mrs. Keith, Miss Rae Clements, Mr. Ed. Ford and Mr. W. McFarquhar.

Coming Events

St. Cyprian's W.A. will hold a sale of home-cooking in the Opera House on Saturday afternoon, June 20th at 3 p.m. Tea will be served during the afternoon and a businessmen's supper from 5 to 7:30 p.m.

Eastern Star Entertains Visitors

The Didsbury Chapter of the Eastern Star received a fraternal visit from the Oils and Carstairs chapters on Tuesday evening. Over thirty visitors were present, together with a large attendance of local members. Mrs. Hartman, Grand Conductress, Mr. and Mrs. J. Duff and Mrs. J. Johnson, past grand officers were among the visitors.

During the evening, Mrs. Adshend, Worthy Matron presented a gift to Mrs. W. A. Teskey who is leaving the district.

After the meeting lunch was served and a very enjoyable social time was spent.

Hospital Day, Friday, June 19th

The Department of Health and the Provincial Hospital Board have set apart Friday, June 19th as Provincial Hospital Day and on that day from 1 to 5 p.m. all hospitals in the province will be thrown open to the public for inspection.

The people of this district are urged to visit the local hospital and the matron, Miss Terry and the nurses will be delighted to escort the visitors in inspecting the institution and to answer any questions.

Tea will be served by the hospital staff from 3 to 5 p.m.

Masons Attend United Church

The members of King Hiram Masonic Lodge attended the Knox United Church in a body on Sunday evening when there was a large attendance. Rev. Bro. A. E. Hayes occupied the pulpit and took his texts from Revelations 21-22: "I saw the city," "I saw no temple therein," "His servant shall serve."

In the course of his remarks Mr. Hayes pointed out that man's task should be trying to make the world better and that he should not be afraid of missing heaven by seeking a better earth.

The choir rendered Barnett's

Wedding Bells.

On Tuesday morning June 9th, two cars went to Edmonton, the occupants were Mr. and Mrs. Wm. Snyder and daughter Viola, also Grandma John Brado. Mr. and Mrs. A. Traub and Harley and Miss Ida Good, were in the second car. The occasion was a wedding, which took place in the home of the bride's mother, Mrs. J. Suder, on Wednesday, June 10th, 1931, when in the presence of relatives and friends, Mr. Omer Snyder of Castor, and Miss Elizabeth Suder, of Winterburn, were united in marriage by Rev. A. Traub. Miss Viola Snyder, sister of the bridegroom, acted as bridesmaid and Mr. Waseley Suder, brother of the bride, was best man.

After the wedding dinner, the bridal party left for Edmonton, to visit the photographer, while the friends enjoyed a pleasant afternoon.

By Friday night the happy young couple had motored to Didsbury where the week end was spent in the home of Mr. and Mrs. Wm. Snyder, parents of the bridegroom. Here also on Monday evening a fine reception was tendered to the young couple when relatives and friends of the family gathered in to express their kindest congratulations in a substantial way to Mr. and Mrs. Snyder.

Besides several cash donations a number of beautiful and useful presents were given to the bride. After a social feast, a fancy lunch was served and a song and prayer were offered and the company then dispersed to their homes, feeling that the evening had been pleasantly and profitably spent.

The newly-weds left for Banff on Tuesday, June 16th and upon their return will reside in the parsonage at Markham, near Castor, Alberta, where Mr. Snyder is conducting a pastorate.

COMMUNITY PICNIC, JULY 1st.

anthem, "Magnificent" and the offertory, "Rubenstein's 'Kamer-moi,'" given by Mrs. Boorman (organ) and Mrs. C. Boulton (piano) was musical treat and much appreciated.

Canada and World Disarmament

During this present period of world-wide business depression some people, good people too, are heard to thoughtlessly remark that the only way out will be another great war; that such a struggle will be the ultimate outcome of the world's existing difficulties. Such a statement should be the last to pass the lips of any person. Another war, instead of being a cure, would be the final world catastrophe.

Many contributing causes there may be to the economic ills of today, but the main source of all the trouble is to be found in the Great War, 1914-1918. That Titanic struggle laid the foundations for what has since taken place. In fact, all students of history fully realize that our present experiences are but a repetition of those which followed the Napoleonic wars. Another great war would have exactly the same results, only worse, because modern world conditions only serve to intensify and prolong such disturbances when they do occur.

Instead, therefore, of even thinking "war," the peoples of all nations should think and talk of nothing but permanent peace, and direct all their energies to the consummation of that ideal.

What is the great financial burden resting on the shoulders of the Canadian people today? It is the debt created by the Great War. The public debt of Canada created in the upbuilding of this Dominion from before the time of Confederation down to 1914 calls for annual interest payments of only \$12,500,000, or only 3 1/2 per cent. of our national expenditures, and approximately \$1.30 per head of our population. On the other hand, interest charges on the public debt created since 1914 amount to \$108,857,000, or 27 1/2 per cent. of our annual expenditures, and more than \$10.00 per head of population in each and every year.

But this is not all of the war burden. In addition to this 27 1/2 per cent. interest on the war debt, Canadians are required to devote another 12.40 per cent. of their expenditures for services arising out of the war, such as pensions, after care of soldiers, etc. That is, out of every \$100 expended by the Government of Canada each year, \$39.42 is directly attributable to the Great War. This is the burden which ties the hands and cripples the efforts of our national government.

Of every \$100 expended by the United States \$60.00 is spent because of war, past, present and future. The war expenditures of Great Britain are in like proportion, or possibly even heavier.

In a recent speech before the International Chamber of Commerce, meeting in Washington, President Hoover declared that the present world depression is largely due to "the destruction of life and property, the great tax burdens, and the social and political instability which resulted from the Great War" and he declared that one major accomplishment which international co-operation could effect in reducing tax burdens, removing a primary cause of unrest, and establishing greater confidence for the long future, was "the limitation and reduction of armaments." President Hoover proceeded to back up his assertion with those startling facts and figures.

The world expenditure on all arms is now nearly five billions of dollars yearly, an increase of about 70% over that previous to the Great War. We stand today with nearly 5,000,000 men actively under arms and 20,000,000 more in reserve. These vast forces, greatly exceeding those of the pre-war period, still are to be demobilized, even though twelve years have passed since the Armistice was signed, because of fear and of inability of nations to cooperate in mutual reductions. Yet we are all signatories to the Kellogg-Brundage Pact, by which we have renounced war as an instrument of national policy, and agreed to settle all controversies by pacific means.

Nevertheless, in the face of such a declaration from President Hoover, and also in the face of a huge national deficit of over \$500,000,000 which is engendering economies in practically every department of government, the United States budget for 1932 provides for an increase of \$26,000,000 in prospective outlays on military-navy expenditures.

Canada, too, is a signatory to the Kellogg-Brundage Peace Pact, and as such this Dominion is steadily reducing its expenditures for defence purposes; we have no offensive services. Expenditures for National Defence by Canada are the smallest of any country in the world having anything like the same population or degree of wealth. They total only 5.06% of our annual expenditures. In other words, about two dollars per head of our population.

While, therefore, this Dominion is not at all blameworthy for the present state of world armament, the Canadian people should be staunch supporters of further disarmament everywhere as a step towards permanent peace. As a people we cannot remain indifferent to the attitudes of other nations, and unless a general reduction in armaments takes place another world tragedy will be enacted, and into it we may again be drawn as active participants, and in any event cannot escape its disastrous effects.

Fragments of cotton cloth 5,000. The iron ore fields of Lapsland, years old, found in the ruins of a city, is entirely north of the town in India, were examined micro. Arctic Circle are among the most seismically, and the fibres were found valuable in the world. They are similar to a kind of cotton still grown averages from 58 to 70 per cent. of iron.

Smothering and Fainting Spells

Everything Would Turn Black

Mrs. Andrew Black, Harcourt, N.B., writes:—
 "I had been troubled with smothering and fainting spells and everything in front of me would turn black, and I would fall down in a faint and be unconscious for several minutes. I did not know what to do, until one day I was reading where Milbena's Heart and Nerve Pills had helped so many people and decided I would give them a trial. I used four boxes and found they help me wonderfully!"

Week End Cruises

Comard Line Will Inaugurate Week-End Cruises From New York To Nova Scotia

In an effort to further increase the popularity of Nova Scotia as a tourist country among Americans, the Comard Line announces that their new famous "Week-end Cruises" scheduled for the months of July, August and September will include a call at a Nova Scotian port.

The statement that was issued by Arthur Handley, general manager and traffic manager of the Comard Line in Canada, also pointed out the fact that not only will the "Week-end Cruises" call there, but those of the special summer cruises under the auspices of the National Tours will also make Halifax a port of call. The co-operation of the Nova Scotian authorities has been secured and every effort will be made to see that passengers on these cruises are given as much time ashore as possible to view the many attractions which the maritime provinces have to offer.

"This will be the first time," said Mr. Handley, "that three giant express liners of the size of the 'Benaranga,' 'Aquitania,' and 'Mauretania,' but based at Halifax except that the 'Aquitania' and 'Mauretania' occasionally visited the ancient port during the war. The first sailing of the 'Week-end Cruises' will be the 'Aquitania' on July 2nd, the 'Benaranga' on July 23rd, the 'Mauretania' on August 1st, and the 'Transylvania' on August 15th. These cruises will be carried on throughout the summer until the last sailing of the 'Mauretania' leaving New York on September 18th, while the National Tours cruises will commence on July 27th with the 'Transylvania' and finish with the sailing from New York on August 31st of the 'Benaranga'."

Until July there are scheduled four "Week-end Cruises" from New York, the first leaving New York on 31st, the second on July 2nd, the third on July 23rd, and the fourth on August 1st, calling at Bermuda. The second cruise will be that of the 'Mauretania,' leaving New York on May 15th, calling at Nassau in the Bahama Islands. The third cruise is that of the 'Benaranga,' leaving New York on May 26th and calling at Bermuda, to be followed by a cruise of the 'Mauretania,' on June 5th to Nassau. The "Week-end Cruises" to Nova Scotia will then follow. The cruise of the 'Benaranga' is also unique in the fact that it is the largest liner ever to visit Bermuda.

"These week-end cruises, the first of which have proven so popular, are drawing capacity bookings. On board the attractions include dances, moving pictures, lectures, deck sports, and every type of ship entertainment and the extremely low rates available make them very attractive."

"The reason for these cruises is to familiarize the vast number of people on this side of the Atlantic who have never had the pleasure of sailing in an ocean liner, and to give them the opportunity of making a trip on one of the 'Big Three' with little or no time away from their business."

The calls at Nassau and Bermuda allow passengers to do some sight-seeing or enjoy the local attractions such as trips in the glass-bottomed boats at Paradise Beach, and sea bathing.

Officials of the Comard Line expect that the call at the Nova Scotia port at the best time of the year will enhance the popularity of these week-end cruises.

Persian Balm, the unrivalled toilet requisite. Essential to every dainty woman. Imparts rare charm and beauty to the complexion. Softens and beautifies the skin. Makes hands irresistibly white. Cools and refreshes. Relieves roughness. Best for the feminine complexion. Delicately fragrant. Scuttily absorbed into the skin, leaving no stickiness. Persian Balm invariably creates a subtle elegance and charm.

Establish Air Bases

Two parties of scientists and mechanics have been sent to the Arctic to establish the two base stations farthest north for the proposed Zepelin polar airship, planned to run from Berlin and London over the top of the world, down to Alaska and south to San Francisco.

Indianapolis News: The man who looks neither to one side nor the other, but who faces the front, his gaze intent upon his guiding star, is likely to be hit by somebody making a right turn.

New Use For Music

Elgar's Rousing March Cheers Brooklyn Store At Closing Time

You may not have realized it, but one of the matters to which department-store executives have devoted a great deal of thought is how to get rid of their customers at closing time without actually pushing or shoving them out. A gentleman who wandered late one afternoon into Abraham & Straus', in Brooklyn, New York, reports a neat way they have of doing it there. He saw it work at five-thirty a gong rang. Immediately from loudspeakers scattered along the walls issued the rousing strains of Elgar's "Pomp and Circumstance." Ladies lingering over bargains straightened, seized their parcels, and in no time were swinging briskly along toward the exits. The floorwalker he questioned, was enthusiastic about the idea, and it was the best they'd ever had for the purpose, and, incidentally, paid a high tribute to Elgar. His march, the floorwalker said, cleared the store faster than anything else they had been able to find by extensive experiments.

Plans Round Trip Flight Over Ocean

Commander MacMillan and Pilot Will Attempt Hop In June

In the role of trans-Atlantic flyer whose goal is the next round-trip crossing of the North Atlantic by airplane, Commander Donald B. MacMillan, veteran explorer of the Arctic, will attempt to fly back and forth between Boston and London this summer.

A swift monoplane, a Lockheed-Vega, the same design of ship in which many trans-continental speed records have been set, will be used. A Los Angeles flyer, Charles F. Rocheville, will pilot the ship. The take-off is set for June 21.

A Constituent Of Concrete

Portland cement is used on one of the constituents of concrete for the construction of foundations, dams, and bridges, buildings, and building blocks, cement mortars, and for many other purposes. It is one of the most important of our structural materials. Materials suitable for the manufacture of Portland cement occur in all but one of the provinces of Canada.

World's Grain Exhibition

Spain Making Arrangements To Participate In Conference

Though Spain is very busy just now reorganizing its national administration, the importance of the World's Grain Exhibition and Conference to be held at Regim, July 25 to August 26, 1932, has not been lost sight of.

A few days ago the headquarters' office of the Exhibition and Conference was advised by the General Director of Agriculture of the Spanish Ministry of National Economy that a special committee of cereal agriculture had been appointed to devote itself to the definite organization of participation by Spain in the World's Grain Exhibition and Conference.

Spain has a particular interest in the forthcoming world-wide grain exhibition and conference in that it is a preponderantly agricultural country. Its productive area is calculated at 114,000,000 acres of which, last year, nearly 12,000,000 acres were sown to wheat, 5,000,000 acres to barley, 2,000,000 acres to oats and 1,500,000 to rye.

Seventeen countries have now officially accepted the invitation to be represented at the Exhibition and Conference, namely, Italy, Peru, Yugoslavia, Guatemala, New Zealand, Czechoslovakia, the Netherlands, Belgium, Poland, Siam, India, Portugal, Switzerland, Estonia, the Philippines, the Argentina and Spain.

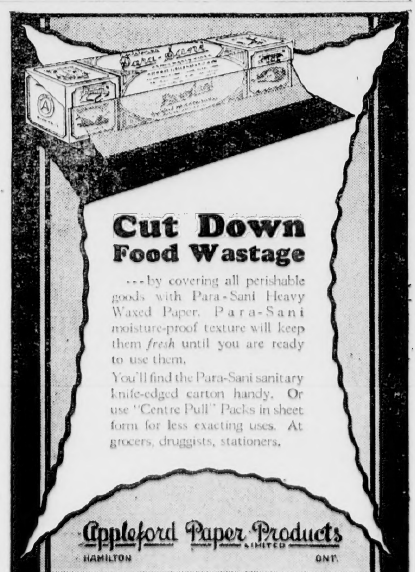

HEADACHE?

Why suffer when relief is prompt and harmless

Millions of people have learned to depend on Aspirin tablets to relieve a sudden headache. They know it eases the pain so quickly. And that it is so harmless. Genuine Aspirin tablets never harm the heart. Read directions in package for headache, neuralgia, summer cold, pain of all kinds.

New Uses For Wheat And Other Grains Is Subject Of Research Council Survey

News uses for surpluses of wheat and other grains are being made the subject of an exhaustive survey by the National Research Council, it was announced in a statement issued recently. Other studies are being conducted in the hope of developing processes which will turn waste materials into products of commercial value.

Dealing with the program of the National Research Council, the statement set forth:

"Two researches initiated are already yielding interesting results. One of these is a study of the refuse screenings (largely seed needs) which accumulate at the elevators at the head of the lakes to the extent of more than 50,000 tons a year.

"Today these screenings, if marketable at all, fetch almost nothing. The research is already indicating that they could be made to yield products—oil for soap making, fertilizer and possibly feed—which would make them distinctly valuable.

"In the other research a beginning has been made on the problem of finding methods of utilizing straw. This big problem is not likely to be solved in a hurry, but is surely one which a Canadian research institution should tackle. The traveller through Western Canada after harvest cannot fail to have been impressed by the almost mountainous piles of straw which dot the landscape, but few probably realize that the total amount of straw grown in Canada each year aggregates about 50,000,000 tons.

"The National Research Council is making a careful study of the possibilities of using surplus grain for the manufacture of fuel, alcohol, starch, dextrine, glucose and other sugars, acids and heavier solvents by means of fermentation, etc. This includes a study not only of the technical but also of the economic aspects. The latter are clearly important, as the fact that a given method of utilizing grain for manufacturing purposes is economical only in seasons when prices are abnormally low obviously an important consideration in determining the feasibility of establishing plants based on such a method."

A Canadian Egg Plant

Experimental Work Being Carried On To Get Type Fixed

An egg plant which promises much of value to Canadians is referred to in the annual report of the director of Dominion experimental farms. As the result of long continued studies, the Dominion horticulturist makes the following observations:

"A Japanese egg plant called Negasaki, with fruit too small for the general market, having proved the only egg plant that would produce a satisfactory crop in many parts of Canada owing to its earliness, was crossed with the Black Beauty, one of the large but rather late varieties, with the result that an egg plant of good size was produced, which is much earlier than the Black Beauty. Experimental work in this connection is now being centred upon getting the type fixed. When this is accomplished, an egg plant suitable for cultivation under Canadian conditions will be established and it will probably become an important new factor in horticulture throughout Canada.

Journeys on the new air lines between the Netherlands and the Netherlands East Indies will require 12 flying days.

"Look here, stand me a whisky and soda, and you may win." Dorf, barkeeper, Berlin.

W. N. U. 1899

The Cost Of Sickness

Unnecessary Loss Of Life Each Year From Diseases That Could Be Prevented

(By John Burle Ingram.)

One Canadian out of every three dies ahead of his time, statistics show. One death out of every three deaths that bring sorrow to Canadian communities, large and small, could be postponed. We Canadians are letting our friends and relatives die because we do not know how many diseases there are which could be prevented or because knowing, we will not take the trouble, the simple trouble to prevent them. Why are these diseases not prevented.

"That is the question which every thinking Canadian should want answered! For centuries disease was inevitable because mankind had not learned how to prevent it. Doctors existed to heal the sick, but it was nobody's business to attempt to prevent sickness from occurring because in those days it could not be done.

Then an English scientist named Edward Jenner, discovered vaccination against smallpox. Doctors began to vaccinate people—which meant that doctors began to treat "healthy" people in order to keep them from becoming ill by contracting smallpox. As a result this disease, at one time the greatest scourge of the race, has been beaten down till today it occupies a negligible place among the killers of civilized men.

The success of vaccination made medical scientists think along new lines. If a substance had been discovered which would prevent smallpox, why could not other substances be evolved to prevent other diseases? The idea was sound. Today there is a substance which prevents diphtheria, another to prevent typhoid fever, another against scarlet fever, another to prevent lockjaw, another which used in infantile paralysis prevents crippling.

But though science is in a condition to prevent diseases by these and other means, we are not taking advantage of the protection which is offered to us. For centuries we regarded disease as a kind of god, and because it is hard to change the thinking habits of a people in one single generation we will, even most of our leaders, retain this medieval attitude.

And therefore today, Canada's lifeblood is flowing from wounds inflicted upon her by her enemies disease germs. Not merely in dollars and cents alone disease kills us annually, but also in our man-power. Canada needs population. Canada is constantly losing foreign and other immigrants to her shore, yet she permits her own sons and daughters to die of diseases which could be, and should be, and some day shall be prevented! Diphtheria and typhoid fever, both preventable, take respectively 1,200 and 1,111 lives annually, yet both diseases are preventable! The death rate from tuberculosis has been cut in two in the past 25 years, and could be even with our present incomplete knowledge, halved and halved again. Cancer kills almost 8,000 Canadians every year, and despite the fact that we don't know what causes cancer, this death rate could be cut in half if adult Canadians would cultivate the habit of having themselves periodically and thoroughly examined by a competent physician every birthday. And so all through the pitiful list of diseases which now rob us of our best and fairest heart disease, maternal mortality, infant mortality, venereal diseases, all can be cut down if men and women will realize that they get just exactly the kind of health service that they want and are willing to pay for, and that by backing their public health officials, they may, in some measure, be held responsible for the health of a nation that is too indifferent to help itself.

High Finance

Twelve out of 17 police captains so far investigated in Chicago had excessive bank accounts. One of them, on a salary of \$4,000 a year, bought \$48,000 worth of securities in four years. At least it is to be said of him that he did not waste his substance in riotous living.

Better Demand For Wheat

European Market Much Stronger During Past Few Weeks

Europe is buying Canadian wheat again, indicates the monthly report on grain movement issued by E. A. Ursell, statistician to the Dominion Board of Grain Commissioners. Also, he forecasts, Europe will continue to buy Canadian wheat.

In April, exports of wheat from the Dominion totalled 16,660,843 bushels, more than 3,000,000 bushels in excess of exports in March. Of the April total, 15,065,843 bushels were cleared from seaboard ports. The rest was sold in the United States for milling in bond. Mr. Ursell mentions that chartering of tramp tonnage and available tonnage is brisk at Montreal, an indication that wheat movement during May will be substantial. Vancouver and Prince Rupert Pacific ports, were leading export points in April, a total of 5,872,859 bushels being shipped from the two. Shipments from Canada ports on the Atlantic amounted to 3,633,985, cleared from United States eastern ports. Imports of Canadian wheat for milling in bond totalled 1,563,000 bushels.

Where Plumb Line Is Crooked

In Northern India It Always Inclines Toward the South

India is a land of wonders. It has the tallest mountain in the world, the biggest arches, the rainiest spot and so many snakes that 20,000 people and 4,000 cattle are killed by them every year. But there is a still greater wonder. You know that if a boy holds up a plumb line in England—that is, a string with a weight on it—it hangs straight down; but in Northern India if a boy holds up a plumb-line it does not hang straight. It leans towards the south. Why is this? One would think that if it leaned at all it would start towards the mighty Himalayan mountains, attracted by their great mass. But, as a matter of fact, these mountains are made of light rocks, while the great Deccan Plain to the south consists of very dense and heavy soil. The plain, therefore, attracts the plumb-line a little out of the straight.

No Cause For Alarm

World Will End In Million Million Years, Says Astronomer

Accurate data on the precise moment when the Archangel Gabriel will send a blast from the trumpet of doom to destroy man and all his handiwork was obtained when Sir James Jeans, noted British astronomer, arrived at New York on the liner "Mauretania."

Sir James took two deep breaths and announced that, barring unforeseen accidents, the end of the world would arrive in a million million years. Whereupon, New Yorkers went right ahead with their plans for the weekend.

QUEEN MARY ATTENDS WEDDING

Queen Mary leaving St. Margaret's, Westminster, with the bride's father, after recent wedding of her god-daughter, daughter of Sir Derek Kippell, Master of the Household, to Philip Woodhead, M.C. Her majesty motored from Windsor especially for the occasion.

Farm To City Movement Is Becoming Less Popular And Reaction Is Setting In

Alberta Beef For Britain

May Ship From 400 to 500 Head Of Prime Beef Cattle Per Week

Larger supplies of one of Britain's principal items on the menu of the people of that country, beef, may be sent from Alberta, if satisfactory arrangements can be made between the British Consumers' Co-operative and Alberta breeders. Representatives of this co-operative society, which extends to upwards of twenty million consumers in the British Isles, after an extensive tour of Alberta ranches, stock farms and feed lots, have, it is reported, stated their intention of taking from 400 to 500 head of prime beef cattle per week, provided a standard of quality can be guaranteed. They have been in consultation with members of the Alberta Government and representatives of the Alberta stockmen's associations and co-operatives.

Particular interest was evinced by the British buyers in the "feed lots" in the vicinity of Raymond, Alberta, where baby beef are being fed on by-products from the best sugar refinery there in combination with alfalfa and other foods.

The representatives of the British Consumers' Co-operative, which has its headquarters at Manchester, England, are George Riddle, W. Eastwood and George W. Brooks, accompanied by A. C. Wieland, representative in Montreal of the co-operative.

Wheat From Russia

British Purchases More Wheat From Russia Than From Canada

Canada came second best to Soviet Russia in supplying wheat to the United Kingdom in the first three months of 1931, it was announced by the Department of Trade and Commerce. In the corresponding period of 1920 and 1929 the Argentine Republic led with Canada a close second. This year the Argentine Republic has been relegated to fourth place. In a summary of trade conditions in the United Kingdom in the first quarter of the year, Harrison Watson, Canadian Trade Commissioner in London, England, reports that of total imports of wheat amounting to 11,000,000 bushels, the Soviet Union supplied 10,800,000; Canada, 10,400,000; Australia, 8,600,000; and the Argentine Republic, 7,587,000.

Canada maintains her lead as the chief source of imports into the United Kingdom of wheat flour, supplying 792,343 cwt. in the first quarter of 1931, as compared with 492,214 cwt. from the United States, her nearest competitor.

It is so unusual to hear a good word of farming nowadays that it is not surprising the statement of an individual, who says he has tried both town and country life, and that he has found that a family is better off on the farm with an income of \$850 than it is in the city with an income of \$5,000, should have been given considerable publicity.

It does seem far-fetched, to put it mildly. A family can live very comfortably on five thousand a year in the city, but surely, with the greatest economy, it would be hard to do more than exist on \$850, even in the country. But here we have the word of a man who speaks from experience, and he explains how the seemingly impossible is accomplished. In the first place, the question is not to be considered entirely on a monetary basis, there is more to life than income—living in elegant surroundings, with expensive food to eat, costly equipment of various kinds, and the round of engagements and social functions which the city family comes to regard as an indispensable part of its normal existence.

On the farm, the family gets at nominal cost the products essential for the maintenance of healthy life; it gets plenty of outdoor exercise, which also makes for health and enjoyment. Perhaps, on the small income mentioned, it gets little more. Whether the family would be happier under such conditions than it would be in the city, with an income of nearly \$100 a week is after all, a matter of individual temperament. Some would, and others wouldn't. But, undoubtedly, city life is not all it is cracked up to be, even for those who are comparatively well off.

It is said that a reaction is plainly discernible and that the farm-to-city movement is less popular than it used to be. The land is the basis of all prosperity, and it is a very good sign if a growing appreciation of farm life is in evidence. It may be regarded as a retreat from over-sophistication.

Establish Packing Plant

Eastern Syndicate To Commence Operations In Saskatchewan

A Prince Edward Island syndicate has purchased a three-quarter section farm close to Long Lake, Strathburg, Sask., for the purpose of producing, raising and slaughtering hogs, and curing and shipping bacon to England. It is stated that buildings capable of holding 5,000 hogs are being erected and the necessary machinery and equipment secured. Foundation stock of pure-bred Yorkshire hogs has been purchased and shipped to Long Lake.

Substitute For Flax

New Grain Is Being Tested Out In Western Canada

Safflower, which looks like a thistle without prickles, and has been cultivated in India and Egypt as an oil seed crop, is being tested in Western Canada, as a partial substitute for flax. The seeds contain a drying oil valuable in the production of paints and varnishes, and the oil cake is useful as stock feed. Safflower is suggested by experts in agriculture as a possible supplementary crop to flax in the Prairie Provinces.

Packet Radio Sets

Packet radio sets weighing less than two pounds and having an effective range of 100 miles are to be carried by London policemen on their rounds to keep in touch with head quarters.

"Young Peter is an artist!" "Yes, he is, in spite of all!" "Dorbarber, Berlin."

tion at the office.Changes of advertisements must reach
the office not later than noon Tues-
day to ensure insertion in the issue of
that week.**Govt. Crop Report.**Issued by Department of Agriculture,
Province of Alberta, Edmonton,
June 13th, 1931.

Crop conditions throughout Al-
berta have been much improved by
the showers of the past few days.
Reports indicate that almost all
parts of the province have received
precipitations, although the amount
varies widely at different points.
Showers are reported in the Peace
River district and throughout Nor-
thern Alberta. Quite heavy rains
fell along the main line of the C.P.R.
from Calgary to Edmonton and for
some distance east. Fair rains
were also experienced in the south
coast of Calgary and around Leth-
bridge. Farther east in the central
part of the province where drought
conditions have been severe, show-
ers have been general, although
some districts have received very
little to date.

All seeding is completed with the
exception of acreage being sown for
green feed. The recent rains have
encouraged farmers to increase the
area devoted to this purpose. Where
drought conditions have been most
severe, early sown crops have suffer-
ed to a degree from which they
cannot fully recover and yields will
inevitably be below average. Late-
sown grains are now making satis-
factory progress and with continued
favorable conditions should produce
satisfactory yields. It is generally
considered the hay crop will be
light, due to the prolonged period
of dry weather. Pasture which in
many cases have made very little
growth are showing improvement.
Farmers are taking advantage of
present moisture conditions to sow
clover, alfalfa and grass seeds.
Special crops, particularly on the
irrigated areas are in good condition
and with the continuation of favor-
able weather should give satisfactory
yields.

Slight damage from cutworms is
reported in widely-scattered areas
but this is not a serious factor to
date. Several outbreaks of grass-
hoppers have occurred and immedi-
ate steps have been taken to supply
poison to meet this condition.

Livestock has suffered considerably
from shortage of pasture and water
and are not in as good a condition
as usual at this season. It is ex-
pected however, that with the present
moisture and better pasture condi-
tions considerable improvement will
be made.

Strike Gas at Only 37 ft.

While digging a well eleven miles
west of Sundre on Saturday last,
Alex. Ferguson struck gas. The
well is only 37 feet deep. The flow
was so strong that Mr. Ferguson
applied a light and is now unable to
put out the blaze.

The well is situated thirty-six
miles due west of Oids in range 7,
close to the line running between
townships 32 and 33 west of the
fifth meridian. It is about five
miles west and one north of the new
Carter oil derrick and about the
same distance from the old Monarch
of 1914 lane.

LOCAL & GENERAL

Mr. and Mrs. Jean Weber spent
the week-end at Banff.

Mrs. B. T. Parker is spending a
couple of weeks visiting friends in

**World's Grain
Exhibition
and Conference****Farmers Will Win
\$210,750.00 in Prizes**

The World's Grain Exhibition and Conference offers Canadian farmers
an opportunity to share in cash prizes amounting to \$210,750.00.
Comprised in 56 competitive classes, open to the whole world, are
1,701 cash prizes. A few of the major awards follow:

\$5,500 a first prize for 50 pounds of wheat, 30
pounds of oats
\$1,500 for 40 pounds of barley, 50 pounds of rye.
\$ 800 for 10 ears of corn
\$ 300 for 30 pounds of peas, 30 pounds of flax,
30 pounds of clover.

With this splendid opportunity before them, Canadian farmers should
keep a watchful eye on their growing crops. They should mark for
special care those areas that appear most promising.

It should be understood that all seed and grain samples, if they are
not already selected, will have to be found in crop of this year.
All exhibits must be received by the Exhibition authorities on or
before March 1, 1932.

Of vital importance to the advancement of Canadian agriculture will
be the winning of World Championship in 1932 by farmers of Canada.
Their seed and grain exhibits must demonstrate to the world the quality
of Canada's field crops.

● Select the classes from the prize list most suited to the crop you grow
then select your samples from the best you have.

It is best to make your entry **NOW.**

Your sample for exhibit must be in the hands of the Secretary at Regina
on or before March 1, 1932.

Valuable information relating to the preparation of grain and seed for
exhibit may be secured by writing to the Secretary of the Provincial
Committee, World's Grain Exhibition and Conference, care Department
of Agriculture, your own province.

Show what you grow and share what you know

On application, the Secretary, World's Grain Exhibition and Conference, Imperial Bank
Customers' Rights, will send you prize lists, rules and regulations governing competitive
entries and all other information.

WORLD HAPPENINGS BRIEFLY TOLD

An inter-provincial conference will be held at Ottawa this autumn to discuss federal and provincial taxation boundaries.

The harbor enquiry to be conducted by Sir Alexander Gibbs will include the port of West Westminster as well as that of Vancouver.

No trade agreement with Cuba has been made by the Dominion Government, although Cuba is considering proposals made by Canada.

Dr. Harriet Clibby, who celebrated her 100th birthday last August and was said to be the oldest woman physician in the world, is dead at her home in West Kensington, England.

A world-wide conference on pool, experience and the seeking of remedies was suggested at Leeds, England, by Rt. Hon. J. H. Thomas, Dominions secretary.

The government of France is to have its own legion building in Canada, according to announcement by Hon. C. A. Herry, French minister to Ottawa.

Close to 10,000 Toronto people who have tickets on the Irish Free State Hospital, acceptances haven't a chance for a prize. Their tickets have been seized in the mails.

Indian farmers throughout the prairie provinces have seen a larger acreage of about this year than in the spring of 1929, according to observations of W. M. Graham, commissioner for Indian Affairs.

Rt. Hon. C. R. Atlee, postmaster-general, informed a questioner in the British House of Commons that the government was not prepared to re-introduce penny postage at an early date.

For the first time in Spanish history women will be eligible to membership in the next election. The government has announced that all citizens, irrespective of sex or profession may be candidates.

Why suffer needlessly? Douglas's Erythra Liniment brings quick relief to cold feet, soft corns and warts. Relieves inflammation. Remedies proud flesh.

Apples On Century-Old Tree
There will be apples this year on the 100-year-old Hudson's Bay apple tree, on the lower part of the baronies at Vancouver, Wash. The tree grew from a seed planted by a member of the Hudson's Bay Company in 1820 and seldom has missed a year in bearing. A. A. Quernberg, horticulturist, said it very likely will bear a large crop this season.

Predicts Stormy Summer

"Chatsworth Sage" Bases Conclusions On Purely Scientific Principles

Claiming to have forecast the weather for the past 14 months, including the extreme dry spell now prevailing on this continent, with almost perfect accuracy, J. B. Bowes, of Owen Sound, Ont., widely-known as the "Chatsworth Sage," has announced his prognostications for 1931. He has relinquished the copyrights on his forecasts for the benefit of his many followers all over the Dominion.

Mr. Bowes claims that his conclusions are based on purely scientific principles. His expenses are paid by himself. A check-up of his forecast for the last 14 months reveals that he prophesied the present dry conditions throughout North America.

His forecast for the next eight months is as follows:

June - Very calm, cool and very dry for three weeks, last week strong winds and rains.

July - About ten days real warm. About 12th to 25th, very strong persistent cool winds, very heavy rains that will cause floods in many places, and in northern localities frost. This storm of wind, like the one in January, will cause tremendous seas that will be very destructive to life and property.

August - First half very decidedly warm, sultry, with many thunderstorms. Latter half very calm, warm and dry.

September - About the 6th very strong winds, very heavy rains and frosts. Last two-thirds of month very warm, calm and dry.

October - About first ten days mild and dry, about the 11th wind and frost, then mild; about the 18th strong, cold winds, rains, snow and frost; balance mild and calm.

November - Calm and cool and probably dry.

December - Very calm and very dry to about the 18th, then very strong wind, heavy rains and snowstorms.

January 1932 - Quiet and calm for the first two-thirds of the month.

Tomatoes As a Diet

Will Be Chief Food For Members Of Wilkins Expedition

When Sir Hubert Wilkins sets forth in the Arctic submarine "Nautilus" in his expedition to the North Pole, the man in charge of meals for the entire personnel will be Harry Rothschild. "When asked what will be the most important item in the under-the-ice menu, Mr. Rothschild is quoted in a news despatch from Yonkers, N.Y., as responding: "Tomatoes." Mr. Rothschild is insistent in his contention that tomatoes, canned, in cat-sup or in any other form, have an exceedingly invigorating effect upon people who are subjected to long confinement in stale air, as will be the case in this much-heralded under-the-sea expedition to the top of the world.

Industrial Manitoba

Industry Gradually Taking Priority Over Agriculture In The Province

Bearing upon the recent statement of J. M. Davidson, of the Industrial Development Board of Manitoba, that industry is gradually taking priority over agriculture in the province, it is pointed out that Manitoba is rich in natural resources, having more than 300,000,000 in ore reserves, 137,000 square miles of timber, and 20,000 square miles of water surface. The province is also extremely rich in metallic and non-metallic minerals. With an annual production of more than \$165,000,000, moreover, Manitoba's 130 industrial plants have a yearly pay-roll of \$25,000,000.

Canada and Newsprint Production

More Newsprint Made In Canada Than Any Other Country

More newsprint paper is made in Canada than in any other country. In 1930, Canada manufactured 2,501,000 tons, 36 per cent. of the world production of newsprint paper. The tonnage was practically double that turned out in the United States, which was the nearest competitor to the Canadian mills with an output of 18 per cent. of the world total. Great Britain and Germany each manufactured about nine per cent. and Newfoundland and Japan, five per cent. each. These six countries accounted for about four-fifths of the world supply of newsprint which totalled 6,975,000 tons last year.

Though Canada's aggregate for the upturn of 29 countries producing newsprint, her proportion of the export market was even larger.

DRAPERIES MADE NEW

"When we resumed housekeeping a month ago, all our draperies had become creased from packing. I hung them out on the line, hoping to remove the creases. I forgot them. The result was they became badly faded and sun-spotted. I was heart sick until the happy thought struck me to dye them. I just dyed them a deeper green, and as I used Diamond Dyes they look gorgeous and new. I have never seen easier dyes to use than Diamond Dyes. They give the most beautiful colors—when used either for tinting or dyeing—and never take the life out of cloth as other dyes do."

Mrs. J. E. T. Montreal

Divorce By Legislation

The ninth application for divorce in the last 50 years was recently before the legislative council of the Isle of Man. As the island has no divorce law, a special bill must be passed for each case. After the council has passed the bill, it must be passed by the House of Keys, sent to London for royal assent and finally promulgated from the open-air Tynwald Court.

Miller's Worm Powders not only make the infantile system untenable for worms, but by their action on the stomach, liver and bowels they correct such troubles as lack of appetite, biliousness and other internal disorders which often create. Children thrive upon them and to mother what condition their worm-infested stomachs may be, they will show improvement as soon as the treatment begins.

By a new decree all tooth pastes must be analyzed, approved and registered by the government before they can be sold in Argentina.

Unearth Ancient Treasures

Valuable Discoveries Made In Rush By Oxford-Field Museum Expedition

Jewelry worn at the Court of Nebuchadnezzar, magnificent sculpture of the Sasanian period and royal tombs over 5,500 years old have been discovered by the Oxford-Field Museum Expedition, excavating at Kish, near the site of old Babylon. Dr. Stephen Langdon, Professor of Assyriology, Oxford University, director of the expedition, has sent a report to Sir Charles Marston, author of Essays on the Old Testament, who states that the jewelry is said to be worth several thousands of pounds.

The expedition is working on three separate strata covering three periods of history. Sasanian sculpture, dating from about 250 A.D., was found on the top layer above the great Temple of Nebuchadnezzar. The find of treasure from the Nebuchadnezzar period is sensational and includes solid gold ornaments.

"It will be of great interest to know just what has been found because the time of Nebuchadnezzar is one about which we are learning a great deal from recent discoveries and excavation is supporting the old biblical narrative to an extraordinary extent," Sir Charles says.

Below the Nebuchadnezzar Temple have been found a further series of Sasanian royal tombs. These are about 5,500 years old and the expedition is just beginning to explore them. Written tablets and cuneiform writings have been recovered which will probably shed light on the history of those times, Sir Charles adds. "It is especially interesting to know that the date of the floods has now been fixed at 3,400 B.C., so that these tablets are probably older still."

For Scabs Or Burns.—Dr. Thomas' Electric Oil is a standard remedy for the prompt treatment of scabs and burns. Its healing power quickly soothes the pain and aids a speedy recovery from the injury. It is also an excellent remedy for all manner of cuts, bruises and sprains, as well as for relieving the pains arising from inflammation of various kinds. A bottle in the house and stable saves many a doctor's and veterinary's fee.

Canadian Bond Sales

Canadian bond sales for the year to date amount to \$211,193,356, as compared with \$191,933,221 for the corresponding period of last year, and \$148,814,646 for that of the year before. Purchases by Canadian financial houses made up a total of \$147,306,286, while American firms bought to the extent of \$59,747,000 and British, \$1,100,000.

More than 21,000,000 acres in Argentina were planted to wheat last season.

Take Long Walks Fat Men are Told

How can you walk off your fat if you haven't any energy to do it? You can take off fat with Kreschen Sals if you will take one-half teaspoon in hot water every morning before breakfast, modify your diet and exercise regularly.

There are six different salts in Kreschen that your body organs must have if you are to enjoy good health. While you are losing fat you will be gaining in vigor, energy, vitality and power of endurance.

That means that soon you will be able to walk many miles without fatigue and enjoy every step you walk. Using Stores all over Canada will Kreschen Sals, and a jar costs but 75 cents—it's a real blessing to fat people.

Co-Operative Wool Growers

Wool Receiving Warehouses To Be Opened At Portage In Prairie And Regina

The Canadian Co-Operative Wool Growers have completed arrangements for wool receiving warehouses at Regina, Sask., and Portage la Prairie, Man., to receive shipments of wool from June 1 to August 31. A letter has been sent to the wool producers requesting that they forward their shipments to arrive at the warehouses between these dates. Reports show that the volume of wool handled in the past year was 1,038,265 pounds more than the objective for the year, which was 4,000,000 pounds.

As a vermicide an excellent preparation is Another Graves' Worm Exterminator. It has saved the lives of countless children.

Exhibition For Charity

England's fancy mice exhibition at St. Albans, England, had more than 70 various kinds of plain and fancy mice shown by women fanciers. Mostly experimental, there are few limits to the combinations and cross-breeds obtainable. Among the freak results are white mice with black eyes; silver and tan mice; black and tan mice, and one instance, extremely rare, a blue mouse. Proceeds from the exhibition are for charity.

of special Low Cost Holidays.

Burnside Notes

Mr. Ralph Long was a Sunday caller at Mr. Noah Eckel's.

Miss Nellie Bradman spent the week-end with Mrs. Ed. Anderson.

Mr. Bob Spraggs came down from Peace River Tuesday to spend a few weeks with his folks.

Miss Mildred Ciperley spent a couple of days last week with Miss Winnie Spraggs.

Miss Margaret Reimer, of Louisiana is visiting her friend, Miss Mildred Ciperley.

Mr. Dave Jenkins left on Thursday to spend the balance of the summer at Vulcan.

We are glad to hear that Mr. Albert Arlenson, our very efficient school teacher will be with us another year.

Mr. and Mrs. Clarence Hembling and Mrs. Jack Cummings and family were Sunday visitors at Mr. and Mrs. Bert Pross.

Miss Conroy, of the Dept. of Agriculture and Mesdames McRae, Eckel and J. Sheils were tea hour visitors at the A. E. Thompson home Wednesday last.

A jolly party of young people, including the Community Club and their friends met at the Hall Saturday evening, the occasion being the birthday of Mr. E. Anderson, the president, when he was presented with a silver pie plate and stand. Mr. Albert Arlenson made the presentation and after a few words in reply by Mr. Anderson, the evening was spent in games and dancing.

The W.I. held a most enjoyable meeting at Mrs. B. Woods on Thursday last, with Mrs. Hoesgood, constituency convener and Mrs. Wahl as guests of honor. A splendid report on the recent convention was given by Mrs. Hoesgood and a report on the recent picnic showed a moderate amount raised. Four babies, Ralph and Stanley Schumaker, Donald Thompson and Helen Dick were given \$1 to start a banking account. The next meeting will be held at Mrs. Eckel's in July when the roll-call will be answered by "Short cuts in housework." Miss Mildred Ciperley will give the topic, "Labor-saving Devices on the Farm."

Mountain View Notes

The annual picnic is to be held the second Wednesday in July at Community Hall.

The monthly meeting of the W.I. takes place in Community Hall on Thursday at 2 p.m.

Mrs. Hugh Roberts reports a litter numbering fifty from three sows.

The recent thunder showers have caused many a farmer to wear a smile and help lighten his financial embarrassment.

Church services are being held in Community Hall on Sunday evening at 8 p.m., the student preacher being Mr. C. Warren from Toronto.

Mr. and Mrs. J. W. Watson and son John, of Calgary, accompanied by Miss Goderman and Mr. H. Beacon were visitors at the home of Mrs. B. A. Atkinson on Sunday.

A baseball match was played between Mona and Hantelife schools on Friday afternoon. The Mona pupils gained the highest score. After the game the pupils and teacher served a sumptuous lunch to the visitors which the Mona pupils thoroughly enjoyed after their trip and game.

Free Culling Service.

The season is fast approaching when the poultry market will be flooded with fowls and broilers. This condition results in a drop in prices paid for fowls and roosters. Coupled with this is the fact that present egg prices are away below the cost of production, so that no

one can afford to keep non-layers around the farm. These two reasons alone should be sufficient to have the farm flocks culled.

The School of Agriculture is offering this service free to farmers in the district. A telephone call or letter to the School will bring a man to your farm who will be prepared to do this work. Get together with your neighbors, so that at least five may be visited in one trip.
